

ERG TIMETABLE FOR MONITORING OF CONFORMITY WITH ERG CPs

In the report published at the beginning of 2008 by ERG (**Monitoring of conformity with ERG Common Positions: lessons learned from broadband questionnaires and next steps – ERG (08) 06**), ERG committed itself to:

“publish a timetable for the conduct of future monitoring exercises covering a wider range of ERG Common Positions”.

ERG has now updated the timetable for **2010**. This covers two distinct types of activity:

- A “**Monitoring Exercise**” is conducted to establish the extent of conformity of national regulatory regimes with the relevant ERG Common Position. In reporting on future exercises of this type, ERG expects to publish an assessment of conformity in each country, in addition to an overall assessment. The results may also indicate a necessity to update the underlying Common Position.
- “An **Action Plan**” is an exercise to identify individual NRA plans to bring national regulation into line with the relevant ERG Common Position, especially a newly adopted Common Position.

The time table will be updated from time to time (this is the 2nd update).¹

CURRENT TIMETABLE – December 2009 (activities for 2010)

Subject	Proposed timescale for monitoring
Update of Action Plan for conformity with CP on symmetry of termination rates ²	In preparation. Publication planned in Q2 / 2010
Monitoring of conformity with Broadband CPs ^{3,4 5}	Start 1 st quarter 2010, after completion of current work item on Business

¹ The 2008 time table was published as doc. ERG (08) 19, the 2009 time table as doc. ERG (09) 05

² ERG (07) 83 – Common Position on symmetry of fixed call termination rates and symmetry of mobile call termination rates

³ ERG (06) 70rev1 – Common position on Wholesale local access

⁴ ERG (06) 69rev1 – Common position on Wholesale broadband access

	Services. Publication planned 3 rd quarter of 2010.
Monitoring of conformity with Wholesale Leased Lines CP ⁶	Start 1 st quarter 2010, after taking into consideration the work on business services. Publication planned 3 rd quarter of 2010.
Practical implementation issues regarding geographic differentiation (related to CP on geographic aspects of market analysis, ERG (08) 20) ⁷	Planned for 2 nd half 2010 depending on the actual number of market reviews

The monitoring exercises on broadband markets were held over from 2009 partly in order to take account of ERG's work on wholesale access products for business services. [The Plenary in Warsaw on 3/12/2009 accepted the publication of this timetable.]

⁵ This work will take into consideration the Report on ERG Best Practices in Wholesale unbundled and Bitstream Access (ERG(07)53; and the work on Business services.

⁶ ERG (07) 54 – Common Position on Best Practice in Remedies Imposed as a Consequence of a Position of SMP in the Relevant Markets for Wholesale Leased lines

⁷ ERG (08) 20 Common Position on Geographic Aspects of Market Analysis (definition and remedies)
